Mobile: +27 73 816 7717 **Email:** dillon.wernich@icloud.com

Portfolio: dillonwernich.co.za **Languages:** English (native) | Afrikaans (fluent)

Nationality: South African

PROFILE

Versatile IT professional with a Bachelor's degree in Application Development and practical experience managing digital platforms, technical operations, and client relations. Possesses a strong technical foundation across web and mobile infrastructure combined with excellent skills in communication, technical troubleshooting, and operational problem-solving. A dedicated, detail-oriented individual eager to apply data validation, platform monitoring, and service delivery skills within a dynamic IT operations environment.

EXPERIENCE

Lead Application Developer — Argent Industrial Group

January 2025 – Present · Durban · Xpanda Security & American Shutters

- **Xpanda Security Sales Platform (live):** designed and built end to end; Kotlin Android app, Firebase backend, Cloud Functions email automation, silent PDF generation and role-scoped operations web portals. Live across 28 branches, 58 consultants onboarded, 1485+ quotes and 564+ orders processed.
- **American Shutters Sales Platform (in development):** re-applying the proven platform pattern as a browser-first web app, product and pricing engine reworked for shutter and barrier configurations, with the same role-based workflow and PDF generation.
- **Production ownership:** sole owner of architecture, deployments, data integrity and after-hours incident response; primary technical contact for branches, management and head office.
- **AI in the workflow:** AI-assisted development across the group's platforms; ML Kit shipped in production.
